

## KNOW HOW MUCH TO ORDER AND WHEN

With Tally you can ensure that you have the right levels of stock at the right time. The software allows you to set re-order quantities for specific items, either automatically or manually, whatever you are comfortable with.

- *Maintain adequate stock availability to meet your forecasted sale*
- *Know the stock which must be replenished along with right quantities*
- *Flexibility to set re-order and minimum order quantity*
- *Automatically generate re-order status for each stock*
- *Ensure optimum inventory management by mitigating the risk of over or under stocking*

## KEEP AN EYE ON THE STOCKS WHICH HAVEN'T BEEN SELLING

Tally is designed to give you the flexibility to define your own ageing slabs, basis the nature of your business, so you can analyse ageing inventory and prevent losses.

- *Keep track of the age of stock to avoid losses*
- *Flexibility to define your own ageing slabs*
- *Resolve this complexity instantly at the click of a button*

POWER OF SIMPLICITY

BUSINESS MANAGEMENT SOFTWARE

CRAFTED  
FOR  
GROWTH

At Tally, we believe in the power of technology for business growth. That's why we engineer ours a bit differently. For over 3 decades now, we have had more than 15 product releases to cater to multiple market needs that small and medium business owners across generations, across the world have loved and appreciated. Our product caters to most business sectors like construction, manufacturing, retail, service, trading and audit.

Starting with simple accounting, we also cover inventory, banking, MIS reporting and payroll - all to keep you focused on growing your business and while we take care of the rest. Today, nearly 2 million businesses in over 100 countries trust Tally for their business growth.

**This trust in our product is made possible due to the four driving factors of our technology:**

### AMAZING SIMPLICITY

Tally is extremely simple to learn - even if you have basic computer knowledge. It is our assurance that you can be up-and-running within minutes! It just operates the way you expect it to; making it a delight to use!

### BLAZING SPEED

We understand the importance of getting things done quickly. With Tally's 'flow-based data entry' system, you will be able to make any data entry in seconds and with instant single-key reporting, all your business reports are a click away!

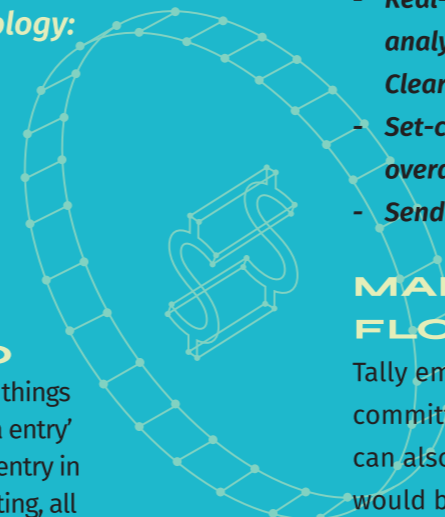

### DESIGNED FOR YOU

Your business operates in its unique way and we understand that. Tally has been built to adapt to your business needs and free of any rigid processes, so that you don't spend time adapting to a software!

### TRUSTWORTHY

Trust is important and thus, we strive to deliver products that you can always rely on. Your data is always safe and secure in Tally, even in the most unpredictable network environments!

### MANAGE OUR OUTSTANDING BETTER

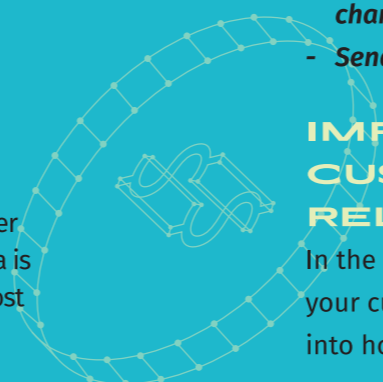

We understand that you deal with different suppliers and customers differently. That's why we've built our product to help you manage these relationships and your money better.

- **Keep clean track of bill-by-bill accounts receivables**
- **Real-time status of receivables and ageing analysis**  
*Clear bulk payments using Bill Settlement option.*
- **Set-credit limits and be alerted when bills are overdue**
- **Send E-mail reminder letters**

### MANAGE YOUR CASH FLOW SEAMLESSLY

Tally empowers you with complete visibility of your committed payments and projected earnings. You can also project what the cash inflow and outflow would be for your business in the time to come - at an astonishing pace!

- **Know your anticipated cash inflow, outflow and the net availability**
- **Visibility of payments committed to suppliers**
- **Plan future obligations and investments**
- **Know historical pattern of inflow and outflow and change in cash position**
- **Send E-mail reminder letters**

### IMPROVE YOUR CUSTOMER RELATIONSHIPS

In the day-to-day hassles of recovering money from your customers, you may not have the best visibility into how your customers are doing with their payments. Tally helps you in evaluating your customers on this parameter so you can take the necessary decisions for a healthy cash flow.

- **Get complete information about the best paying buyers**
- **Identify the customers taking long time to settle payments**
- **Take decisions on credit limit and manage cash flow**

### GET CLARITY ON HOW QUICKLY YOUR STOCKS MOVE

Tally's intuitive design empowers you to analyse stock movement as you want it- by product type, by customer/suppliers, in simplest possible way. This information can help you manage business relationships and negotiations better.

- **Find out slow-moving and fast-moving products**
- **Know your top customers and suppliers**
- **Get complete analysis of stock item movement**

### KNOW WHAT STOCK YOU HAVE AND WHICH SELLS BEST

Tally is crafted for diverse businesses. We realize that there's a need for flexibility in configuring and viewing inventory status that suits your business requirement, so you can manage your stock availability for timely delivery.

- **Real-time stock availability at group/item level and go-down wise**
- **Visibility of the "saleable" and net stock available**
- **Information on products that deliver highest profits and the ones that don't**
- **Flexibility in viewing the closing stock balance by applying different stock valuation methods**

### GET EVERY TINY DETAIL OF EACH STOCK ITEM

There are times when you need to know the performance of a specific item in order to discuss with the supplier or buyer to ensure smart decisions on pricing, ordering etc. Tally addresses this need in minimal time and effort by giving you all information in one window and flexibility to get into as much detail you want.

- **Get details of stock on cost, purchases, sellers and profit or loss generated**
- **Identify your top buyers and sellers for a given product**
- **Get to know the different selling price of the same product**
- **Get details of alternate products of same category or same group**

**We understand that your business needs are unique, and so is your style of working. Hence, our product is built to adapt rather than enforce, giving you the trust to move to a digitized method of business management.**
